EDMONTON BULLETIN JULY 14th, 1902

ACCESS TO THE BRIDGE.

While we are waiting more or less
patiently for the railway train we have
all the disadvantages of the rails oc-
cupying the bridge and roadway with-
out any compensating advantage. Not-
withstanding present disappointment
the rails are no doubt there to stay,
and anything that can be done to less-
en the inconvenience of their presence
and of the railway grade might as well
be done at once. As matters stand at
present every wheeled rig crossing the
bridge is liable to have one or more
wheels twisted or the tires taken off
by climbing over the rails. Besides the
dump for this side is high and long,
and being anything but level is danger-
ous in the dark. The grade should be
levelled up with gravel if possible a
little higher than the track and a strong
guard rail should be placed on each
side of the dump. It would probably be
useless to expect the railway com-
pany to do this, so that the burden will
have to be borne by the town, if the
work is to be done.

On the south side there is very lit-
tle grade so that the difficulty at the
north end of the bridge does not exist
there. But the railway right of way
is too narrow for the track and a track
way on each side, as is necessary. The
heavy traffic to the bridge has made
the roadway on the west side of the
track a perfect gutter that would be
impossible were it not for several loads
of gravel which have been put in. There
is not room for a well graded roadway
of proper width between the track and
the fence. This is outside the town
limits and whatever is done must be
done by the Northwest government.
That government should at once se-
cure the widening of the roadway on
both sides of the track from the south-
ern end of the bridge to the point
where the trails east and west leave
the right of way. It may not be out
of place to mention that a telegraph
pole stands right in the roadway at
the turn of the road. It would be a
very considerable improvement if this
pole were removed and the roadway
where it follows the track turned and
gravelled.

INTERVIEW WITH D. D. MANN.

K. W. MacKenzie, who went from
here on behalf of the people of Edmon-
ton, to interview Messrs. Mackenzie
and Mann with regard to the railway
extension, returned on Friday's train.
On arrival in Toronto, unfortunately
Mr. Wm. Mackenzie had left for Win-
nipeg. The representatives of the
firm, at that time, had their hands
full of matters connected with the
"Street Railway Strike." It was
therefore found impossible to procure
any interview which might prove satis-
factory or effective on this subject of
such vital importance to the town. Mr.
MacKenzie took advantage of the op-
portunity, thus afforded, of visiting his
home and also of transacting some
business on his own account.

On the return to Toronto Mr. Wm.
MacKenzie was again absent, having
gone to Ottawa, but Mr. D. D. Mann,
was there with Mr. Lash, with whom
Mr. MacKenzie was able to procure an
interview. Mr. MacKenzie set the
claims of the town, connected with the
agreement of surrender of their rail-
way charter, whereby a spur line was
to be built into the town at a given
time and pointing out that the terms
of this agreement had not
been carried out either in
fact or spirit. This statement
was met by Mr. Mann asking
"What are you going to do about it?"
Mr. MacKenzie feels a great per-
sonal responsibility in this matter, as
he was mayor of Edmonton when the
deal between Mackenzie & Mann was
consummated, was for the moment
somewhat staggered, but replied that
he had been sent by the people of Ed-
monton to secure and take back some
definite statement as to what was go-
ing to be done, or what would not be
done in connection with the spur track,
and that he could not return before
he had something new to tell them.

Mr. D. D. Mann hereupon proceeded
to explain all the difficulties with
which they had been met on all sides
from the day they had faced the under-
taking and expressed wonder that the
town should show any inclination to
"hold them up." Mr. Mann said: "The
chief difficulty lies in the fact that
"no one will operate the branch. We
"have offered the extension to the
"C. & E. free of charge, if they
"would undertake to operate it. They
"declined stating they would not un-
"less paid. We have since had an
"agreement drawn up by our solici-
"tors and submitted to the C. & E.
"for their consideration, but have not
"received any reply." Mr. Mann ex-
pressed surprise when he was asked
about the construction of the station,
evidently wishing to convey the idea
that he thought the depot had already
been erected. Continuing Mr. Mann
said: "You can tell the people of
"Edmonton that it is only a matter
"of weeks rather than months when
"the line will be in operation and
"that instructions will be sent west
"to proceed at once with the con-
"struction of the station and for the re-
"pairing of the grade on the exten-
"sion. By the time you return it is
"likely steps will already have been
"taken towards the completion of the
"work."

Though these statements appear
somewhat encouraging Mr. MacKenzie

does not think his mission was a satis-
factory one.

Inniskill Creamery.

Free Lance.
Following is the government report
of the creamery at Inniskill for the
winter season of 1901-02:

The season opened on the 1st No-
vember and closed 31st January.

In February, March and April the
cream was sent to Calgary.

Cream was received from 75 patrons.

The quantity of cream received was
13,445.1 inches, yielding 12,721 lbs. of
butter.

The average price realized for butter
at the creamery was 24.38 cents per
lb., which was accounted for to the pa-
trons as follows:

Cash,	19.38 per lb.
Making charge,	4c per lb.
Assessment,	1c per lb.
Total	24.38

Sold from Calgary, 12,549 lbs.,	\$3061.39
Local sales, 36 lbs.,	7.50
Taken by patrons, 142 lbs.,	34.84
Buttermilk, sold,	18.36
	\$3122.09

Disbursements.

Charge for making 12,721 lbs of butter at 4c per lb.,	\$508.84
Assessment,	127.21
Divided among patrons per Statement No. 1—	
Advanced by cheque, \$1,811.00	
Butter taken out,	34.84
Cost of hauling,	29.91
Balance paid, May, '02, 613.30	
	\$3125.19

Less—Balance due from patrons, 3.01

\$3122.09

Homestead Entries.

Ottawa, July 7.—The returns of
homestead entries in Manitoba and
the Northwest show an increase of
6665 over last year, although the set-
tlers had to go further back from the
railway lines to take up land. The
total entries for the year ending June
30 were 14,838, as against 8,167 in 1901.

The entries in 1900 were 7426; in
1899, 6638; in 1898, 4848; in 1897, 2384;
in 1896, 1857.

The entries for the year 1902 repre-
sent a total area of land of 2,373,120
acres, compared with 297,180 acres in
1896. The largest number of entries
were received at the following:

Regina,	2436
Edmonton,	2245
Alameda,	1179
Calgary,	1494
Red Deer,	1150
Prince Albert,	1910
Yorkton,	1086

ESTIMATED CROP YIELDS.

The Territorial government's annual agricultural report for 1901, gives the crop yield for various districts of the Territories for the past four years. For purposes of compilation the Territories are divided into 16 crop districts. The country around Edmonton and Wetaskiwin forms one of these districts. Of course the returns are not by any means accurate, but become more nearly so year by year.

	Bushels.	Acres.	Yield.
1898.	627,201	24,122	26.10
1899.	690,642	27,004	25.02
1900.	443,429	23,699	18.78
1901.	691,125	26,624	25.97

	Oats.	Yield.
1898.	1,115,358	24,246 46.53
1899.	1,406,864	32,802 42.87
1900.	1,476,913	45,830 32.15
1901.	4,120,265	51,650 67.49

	Barley.	Yield.
1898.	213,103	6,551 31.02
1899.	120,389	4,500 26.46
1900.	123,543	5,101 24.22
1901.	299,644	5,701 52.55

Just how North Alberta stands as a crop producer as compared with the Territories as a whole may be seen by comparing the yields given above for the Edmonton district with the average yields given for the Territories during the same years:

	Wheat	Oats	Barley
1898.	18.00	28.93	26.29
1899.	19.02	34.81	25.02
1900.	9.75	24.08	20.72
1901.	25.44	48.43	36.75

For every one of the four years gives the average yield of the Edmonton district in wheat, oats and barley exceeds the average of the Territories. The difference being most marked in oats. If this return is reliable it should pretty well decide which is the better grain growing portion of the Territories.

A comparison by districts is not less favorable to Edmonton, not only as showing the large yield in a single year but the evenness of the average in all years. The latter districts for which production are generally considered to be those along the main line of the C. P. R. from Mooseomin to Moose Jaw. For the purposes of the report this district is divided into three parts. The most easterly takes in Mooseomin and Broadview, next comes Indian Head and Qu'Appelle, and then Regina and Moose Jaw.

For the Mooseomin, Broadview districts the averages are:

	Wheat	Oats	Barley
1898.	16.00	27.99	22.59
1899.	16.40	36.28	20.32
1900.	7.91	9.32	9.96
1901.	21.10	34.52	29.15

This shows that Edmonton exceeded Mooseomin in average yield of wheat, oats and barley in every one of the four years.

The averages for the Indian Head, Qu'Appelle district are:

	Wheat	Oats	Barley
1898.	18.17	26.45	19.59
1899.	18.75	29.86	23.15
1900.	7.65	14.70	15.11
1901.	29.54	44.55	33.51

Edmonton exceeded this district in oats and barley every year and although this is the banner wheat district of the Territories, in wheat yield also in every year, but 1901, which was a year of phenomenal wheat crop at Indian Head and of average crop at Edmonton, as the returns very clearly show.

The averages for the Regina, Moose Jaw district are:

	Wheat	Oats	Barley
1898.	20.99	24.05	18.99
1899.	26.55	35.19	21.23
1900.	11.81	15.45	10.03
1901.	29.73	51.95	41.25

In this district the wheat yield exceeded that at Edmonton by a fraction of a bushel in 1899 and by nearly three bushels in 1901. But in the other two years the Edmonton district was ahead; 6 bushels in 1898 and seven bushels in 1900 while in oats and barley, Edmonton excelled in every year, exceeding the Regina, Moose Jaw district in oats in 1901 by 15 bushels to the acre.

These returns should settle once and for all the question so often asked; is the Edmonton district a good wheat country. They show that not only is it unquestionably the best part of the Territories for growing oats and barley, but it is also the banner district for wheat.

BEAVER LAKE.

R. A. McKenzie came in from Beaver Lake on Friday with teams to take out lumber and material for a new house. Mr. McKenzie is one of the pioneer settlers at the lake, and putting up a new house shows his confidence in the country.

The roads are still very bad and the trucks putting into the lake on the west side had risen, as the result of the recent rains, sufficiently to make travel over them difficult and to make repairs necessary.

The lake is higher than it has been for many years. W. Rowland, formerly of Edmonton, but now settled southwest of the lake, however, remembers seeing it 63 years ago when it was rather higher than it is now. The lake had fallen two inches before the recent rains, but since then it has risen four inches.

Crops look fairly well at the lake and all along the trail coming in. A ferry is operated across the outlet of the lake giving access from the west to the east side.

R. Logan has sent to Edmonton City and of beef cattle which he had recently. Speaking of the great rise in the waters of the lake Mr. McKenzie has no doubt that at one time the lake was so low that it was divided into two parts, but it has not been able to verify the statement from the actual observation of anyone he has met.

Northwest Public Works.

The Northwest government has authorized the construction of a bridge over Horse Hills creek between sections 12 and 18, township 54, range 23, west of 10. At the same time plan is being prepared for improvement district roads to construct culverts. In letter to R. Secord, M. L. A., J. S. McKinnon, deputy commissioner of public works for the Territories, says that the plan has been decided to reconstruct at the earliest possible date all bridges which have been washed out or damaged by high water. Mr. McKinnon has decided that the Territorial public works department has between thirteen and fourteen hundred bridges, several thousand culverts, ditches, forries, etc. and the drainage of Fawcett's lake north of town Mr. Dennis says it is intended to take up this drainage at the earliest possible date.

REV. D. G. McQUEEN ON EDMONTON.

The Galt Reformer of July 3rd, has the following interview with Rev. D. G. McQueen:

The Rev. D. G. McQueen, of Edmonton, has been spending three weeks in this district, where he has relatives. He came east to the general assembly in Toronto, and leaves to-morrow night for his western home and pastorate.

Fifteen years ago last Friday, June 27th, Mr. McQueen arrived at Edmonton, immediately after graduating, sent there by the Home Mission Committee of the general assembly. He labored where in what was then a mission field. At that time Edmonton had a population of three hundred, and Mr. McQueen was referred to as the northwest corner post of the Presbyterian church. At the end of six years, 1893, Mr. McQueen received a call from the Edmonton church. He accepted, and, as has been said, has been fifteen years in Edmonton, now a thriving place of some three thousand souls, and rapidly growing.

"We expect Edmonton to be the metropolis of that part of the country," said Mr. McQueen, in a brief, but breezy western chat accorded a reporter this afternoon.

"Agriculture is not our only industry," continued Mr. McQueen. "Edmonton is one of the world's great fur centres. In fact, it is said to be the largest fur market on the continent. The Hudson's Bay Co. and several private firms make it their headquarters, and it is certainly important from a fur standpoint."

"Agriculture, suppose, is our chief source of profit, for that western country has fertile fields. Mineral wealth, however, is not unknown. The gold is found in the river beds. Previously the operations were confined to hand-work, but dredges have been introduced, and the prospects are excellent. Coal is plentiful. Soft coal is what I need for my home. All winter it was never higher than \$3. There's no hard coal, but for fuel, the soft answers very well."

"We are not quite without the pale of civilization for each of the two towns, Edmonton and Strathcona, has a roller mill, and saw mill, and the Brackman-Ker Co. has a large oil seed mill in Strathcona. There are fine stores in each place, and some are equal in every respect to the best in Ontario."

"As to religion, all the large denominations are represented, but in Edmonton and Strathcona. Educationally, there's every reason to be satisfied. The public schools are good, and the high school in Edmonton is the pride of the west. I am afraid, however, that we shall lose our principal, John Ross, B.A., as he has been offered \$3,000 a year to go to Dawson City. He's receiving \$1,200 in Edmonton."

"As to climate, I like the west. I prefer our winter to Ontario's, because of its uniformity. You may think the temperature rather low, but, as a matter of fact, during the winter months it does not average more than 20°. Our summer is shorter than yours, but it's fully as warm. The ice breaks up in the river about April 15th, and freezes about Nov. 20th. Of late, for the last four years, we have had extremely wet weather, and at present there's too much moisture. But the old timers, the half-breeds, say that it's periodical, and our next experience will be dry. Still, I have been out there fifteen years, and have never known any drought to affect the crops, so we are not nervous. As to crops, our oats run from 80 to 120 bushels to the acre. This, I think, will compare with Ontario's yield, which in my time was never higher than 70 bus.

"Yes, you may say that I prefer the west to the east. To any young man who wants to better his condition, let him go west. Let us go west, but remain in Canada. We want all our children to stay in Canada, to remain Canadians. As to the west's future, one day the west will dominate the Dominion, and the bulk of the population will lie to the west of Lake Superior. Next year, fully two hundred thousand settlers will come to us. Many Americans are coming in. I call them Americans, but the majority are returned Canadians, and they're British at heart. Their children, I am sorry to say, have lamentable ideas of Canadian and British history. But we'll remedy that in the schools. Yes, our west will be a country to be proud of. Its mission is to make Canada greater than has been, and it will succeed."

Gazette Notices.

The Northwest Territories Gazette of June 14th, contains the following notices.

Chas. Berry Phillips, of Asker, and John Alexander Mitchell, of Paken, Alberta, have been appointed justices of the peace.

M. C. Bernard, of Calgary, is registrar of vital statistics in place of W. L. Bernard.

Philip Wagner, of Edmonton, has been appointed a commissioner for taking affidavits.

Joseph Brunette, Edmonton, has been appointed weed inspector.

Brick lake school district No. 707, has been proclaimed comprising sections 19, 20, 21, 22, 27, 28, 29, 30, 31, 32, 33, the west halves of sections 23, 26, the north halves of sections 15, 16, 17, 18 and the northwest quarter of 14 in township 41, range 26, and section 36 in township 41, range 26 west of the fourth meridian.

Coal lake school district No. 711 has been proclaimed comprising sections 30, 31, and that portion of section 32 lying west of Coal lake in township 47, range 23, sections 25, 26, 35 and 36 in township 47, range 24, sections 6, 7, and 18 in township 48, range 23, and sections 1, 2, 10, 11, 12, 13, 14, and 15 in township 48, range 24, west of the fourth meridian.

The following school districts have been authorized to borrow to build school houses: Sharp Head, No. 667, \$500; York, No. 653, \$800; Midway, No. 85, \$300; Flavel, No. 688, \$1,000; Sheep Creek No. 178, \$1,000; Dakota, No. 665, \$300.

Notice is hereby given, in accordance with the provisions of the school ordinance in that behalf, that, by order of the commissioner of education, the boundaries of the Ferry Bank public school district No. 630 of the Northwest Territories have been altered by withdrawing therefrom sections 10, 13, 14, 15, the north halves of sections 11 and 12 and that portion of section 3 lying east of the Battle river in township 44, range 27, and sections 17, 18 and the north halves of sections 7 and 8 in township 44, range 26 west of the fourth meridian and adding in lieu thereof sections 21, 23, 33 and those portions of sections 19 and 29 lying east of the Battle river in township 43, range 26, and section 4 in township 44, range 26, west of the fourth meridian; and that from and after the date hereof the said district shall comprise the following lands namely: Sections 21, 23, 29, 31, 32, 33 and those portions of sections 19, 29 and 30 lying east of the Battle river in township 43, range 26; those portions of sections 355 and 36 lying north of the said river in township 43, range 27; sections 4, 5, 6 and the south halves of sections 7 and 8 in township 44, range 26, and sections 1 and 2 and the south halves of sections 11 and 12 in township 44, range 27 west of the fourth meridian.

Notice is given, in accordance with the provisions of the school ordinance in that behalf, that, by order of the commissioner of education the boundaries of the Friedrichsheim public school district No. 478 of the Northwest Territories have been altered by adding thereto sections 19, 30 and 31 in township 48, range 23 and sections 6 and 7 in township 49, range 23, west of the fourth meridian; and that from and after the date hereof the said district shall comprise the following land, namely: Sections 19, 30, and 31 in township 48, range 23; sections 21, 23, 24, 25, 26, 27, 28, 33, 34, 35 and 36 in township 48, range 24; sections 6 and 7 in township 49, range 23, and sections 1, 2, 3, 4, 9, 10, 11 and 12 in township 49, range 24, west of the fourth meridian.

Report on the British Army.

London, June 14.—The report of the committee appointed to investigate the shortcomings of the war office in the matter of the education and training of army officers, has just been issued, and it discloses a state of affairs which is nothing short of a scandal. It will be no surprise to the public, but coming as it does from military experts and unprejudiced judges, it will now make the speedy reform of our whole army system imperative. It has been the neglectful duty of the committee to report that the education and training given in the military schools is absolutely inefficient—that our young officers are taken in by the scientific and generally wanting in education. More attention is paid to the study of the history of the military art than to the study of the science of war. The result is that our officers too often are unable to apply the theory of military tactics to every day practice, they are in too many instances so illiterate as to be unable to spell or express themselves intelligently in writing. It is little wonder, therefore, that active service finds them blockheads and blunders. The fact that a man may get his commission after gaining 150 to 200 marks out of a possible 20,000 marks in an examination, proves that the whole system of education and examination is a farce.

It is found that society influence and the influence of lady friends does more to promote the young officers than his own merit—that merit indeed is nowhere in competition with the corrupting influence of powerful connections. Thus, it is reported, destroys the inducement to work and encourages stupidity and idleness. Well, commendable as it is to encourage the young man to the army, that in the crack regiments it shall be made possible for young men of brains to get on without a good private income, and that the influence of ladies of fashion be as rigorously excluded as it is from other professions, where merit rises by merit and hard work. This masterly and thorough-going report sounds the knell of the present war office system, and it comes at the most opportune moment when the nation is in a hurry to stand any more nonsense.

It has been rumored that in certain quarters, presumably among the aristocratic dea-hedists, there is the desire to have Lord Kitchener, last year, in a few years, succeed Lord Roberts, and make it hot for the incapables. They hope that his desire to take the command in India will rid them of his dangerous personality. But it is hoped and believed in the best informed military circles that Lord Roberts may hold on till Lord Kitchener's services in India are completed, and that the army may have the benefit of incomparable military genius and his experience as an organizer and disciplinarian, and that no ornamental figure-head will take the place where a Kitchener is so sorely needed.

Price of C. P. R. Lands.

Telegram: A report has been in circulation during the last few days that a general increase of \$1 per acre in the price of C. P. R. lands is contemplated. F. T. Griffin, land commissioner of the railway company, was spoken to on the subject and states that no such change is at present intended nor any change in the policy of the company in regard to prices. That policy has been to grade prices in accordance with increased value, the result of increased settlement and demand.

Lands in southeastern Assiniboia and some parts of western Manitoba which a year ago were selling at \$3 per acre have been advanced in price from time to time until they are now scheduled at \$5 and \$6 per acre, and are selling freely to settlers at those figures.

Lands in Northern Alberta and Saskatchewan which were held until recently at \$3 per acre are now selling at \$3.50 per acre. So soon as the company find that there is a considerable margin between their schedule price to pay, the price is increased sufficiently to do so, the tendency to purchase largely for speculative purposes. It is, of course, quite possible that in certain districts some further advance in prices may be found advisable at an early date, as the company's prices are believed to be generally well below the actual value of the land.

That there has been a very general increase in the value of farm lands throughout Manitoba and Northwest Territories within the last six months is evident to everyone. The average price which the company is now receiving for their lands is about fifty cents per acre greater than it was a year ago.

Auction Sale.

In the matter of W. C. Wood, Merchant, Stratheona, Insolvent.

CHURCH DEDICATION.

The dedication of the new Presbyterian church took place on Sunday. The services were conducted by the Rev. Dr. Herdman, superintendent of Presbyterian missions, assisted by the pastor, Rev. D. G. McQueen. The church was crowded to the doors. The opening and closing portions of the service were taken by Rev. Mr. McQueen, who read the Old Testament lesson from 1st Kings, 8th chapter and 22nd to the 33rd verses.

The New Testament lesson, read by Rev. Dr. Herdman, was from the gospel of St. Mark, the first half of the 4th chapter. The text was "Whereunto shall we liken the Kingdom of God, and with what comparison shall we compare it?" The 36th verse of the 4th chapter of Mark.

The dedication anthem sung by the choir was "The Lord of Hosts."

A children's service was held in the church at 3 p.m., in place of the ordinary Sunday school. There was a large turnout of children and a good attendance of older people. Rev. Dr. Herdman conducted the service, assisted by Rev. T. C. Buchanan, pastor of the Methodist church. Dr. Herdman read from the second chapter of Luke and based his remarks on Christ's coming as a babe. Five children were baptized at this service. The parents were: Mr. and Mrs. Rev. D. G. McQueen, Mr. and Mrs. D. R. Fraser, Mr. and Mrs. G. J. Bryan, Mr. and Mrs. W. A. Pollock and Mr. and Mrs. Dr. T. H. Whitelaw. Rev. Mr. McQueen, also addressed the children on their position in the church. The Sunday school would occupy the basement. This should cause the children to remember that they were the foundation of the church.

The evening service was even more crowded than that of the morning, as services were not held in the Methodist and Baptist churches in Edmonton nor in the Presbyterian church in Strathcona. Rev. Mr. Macdonald, of the Edmonton Baptist church, gave the opening prayer. Rev. Mr. Fleming, of the Presbyterian church, Strathcona, and Rev. Mr. McQueen also assisted in

prayer. The lesson was read from the eighth Psalm. The sermon was preached by the Rev. Dr. Herdman from the 32nd verse of the 33rd chapter of Ezekiel; "Thou art become to them as one that plays well on an instrument."

At the close of the sermon Dr. Herdman spoke of this church dedication being the opening of his work in the new field of labor to which he had recently been called, as superintendent of western missions.

The choir sang the anthems, "Dens Misericordiae" and "The Lord is My Shepherd," most acceptably.

ORANGE CELEBRATION.

The celebration of the three hundred and twelfth anniversary of the Battle of the Boyne at Strathcona on Saturday was taken part in by the lodges of Strathcona, and Fort Saskatchewan.

The day was fine, and except for a splash of rain the night before the roads were good, so that there was a good turnout. The Fort Saskatchewan lodge drove up in teams and the way was enlivened by the music of the fife and drum. The two lodges formed in procession at the Orange hall, Strathcona, and proceeded to the agricultural grounds. Addresses suitable to the occasion were delivered by N. D. Mills, of Strathcona, and W. Pollard, of Fort Saskatchewan.

Horse racing and athletic events followed.

In the half mile pony race Mead's "Shoe String" was first and Dowker's "Firefly" second.

The athletic events were as follows:

100 yards foot race; McTavish, 1st; Hlasier, 2nd.

Boys' race under 14 years of age; J. Hewitt, 1st; Clifford, Gainer, 2nd.

Boys' race, under 10 years of age; Guy Barber, 1st; Guy Baxter, 2nd.

100 yards matched race; E. A. Towse, 1st; McTavish, 2nd.

High jump; F. Marks, 1st; C. Marks, 2nd.

Broad jump; F. Marks, 1st; C. Marks, 2nd.

Hop step jump; F. Marks, 1st; T. Lendrum, 2nd.

Ladies' race; Miss E. Lynd, 1st; Jennie Carmichael, 2nd.

Girls' race; E. McNulty, 1st; Katie McNulty, 2nd; L. Carmichael, 3rd.

Girls' race, under 10; M. Campbell, 1st; Gertrude James, 2nd; L. Armstrong, 3rd.

Fat Man's race; J. Jackson, 1st; J. Alton, 2nd.

Dowker's Wild West show was in attendance and went through their performances with their usual dexterity. They were well received.

Taken altogether this was the most successful Orange celebration ever held in the district.

THE SUPREME COURT.

On the opening of the court this morning Moses Yellowgut was brought up on a charge of horse stealing, and pleaded guilty and admitted having stolen a horse on a previous occasion. In reference to this statement the court was informed the charge was withdrawn. Sentenced to 6 months at hard labor in the guard room at Fort Saskatchewan.

Remember the choir concert July 16th. Secure your tickets at K. W. MacKenzie's book store.

STRATHCONA.

Plaindealer, July 12.
Enrolment in the Strathcona rifle association is progressing favorably. There is still room in the ranks for quite a few members. A minimum of forty is required to secure government grant and equipment.

A. A. Harriman and family who came from South Dakota in the spring left on Tuesday for their new home at Beaver Lake with eight wagon loads of effects. Mr. Harriman has 480 acres of land south west of Beaver Lake in the Tofted settlement.

J. K. McLean, D. L. S. and party, reached Strathcona on Tuesday from White Whale Lake. They have been engaged this summer running township lines in the Lac La Poudre, Lake St. Ann and White Whale Lake districts. Mr. McLean says the country traversed is well suited to ranching but for the most part is not adapted for cultivation. They encountered no rain from the 2nd of June to the 3rd of July, but streams, lakes and sloughs were all very high. Mr. McLean goes from here to Fergus Lake country for survey work.

NOTICE.

A general meeting of the subscribers to the Public Library and Reading room will take place on the evening of Thursday, July 17th, at 8.30 (sharp) in the rooms (new McLeod block). Business of importance.

A. B. CUSHING, GEO. GOODALL,
Chairman, Secretary.

73-74.

A Sad Drowning.

The Calgary Herald of July 9th, reports the drowning in the Bow river that morning of two children of Thos. McEllan. The children were playing on the bank of the river from which the boy Clifford, aged 6, tried to catch a log which was floating past. The Herald account continues: The little lad, however, missed his footing, the log eluded his grasp, and he fell head first into the water. In a minute he came to the surface struggling frantically, but in an instant the current bore him into deep water and swept him down the river. The children stood aghast at the disaster, apparently unable to render assistance or call for aid, all except Florence, the sister of the drowning boy. She rushed down the stream, and out on a little promontory past which the water was swirling the body of her brother. She stretched her hands to reach him, but he was too far off and the current was every minute dragging him further away. The brave girl then in a last desperate effort plunged into the water and seized Clifford in her arms. The water was too deep and the current too strong, however, for her to save either herself or him, and in a minute the two children looked in each other's arms sank in the turbid waters of the Bow.
